

We WANT

**Elwood Gold Women's Health day is on 5th September
2025 11am – 2pm**

**Come along and get all the information you will need to
empower you to be the architect of your own health.**

**Did you know that on average,
women with a learning
disability die 23 years
younger than women in the
general population?**

**LeDeR found that 42% of deaths
of people with a learning
disability were avoidable (LeDeR,
2023).**

**less than a third (31.2%) of eligible
women with a learning disability
had received cervical smear tests,
in contrast to 73.2% of women with
no learning disability.**

You!
